

Antibubble™ LT

Silicone Free Defoaming Agent

Antibubble™ LT is a silicone free defoaming agent for general use in solvent-based coatings. Based on a high molecular weight polyvinyl compound, it gives even liberation of entrapped air during production and application. Antibubble LT improves the flow. The recommended addition level for Antibubble LT should be 0.1-0.5%, based on total formulation. Store in original unopened containers. A storage temperature of 35°C should not be exceeded. The product should be stirred until uniform before use.

FEATURES AND BENEFITS

- Easy to Incorporate

CHARACTERISTICS

Characteristic Name	Value
Appearance	Yellowish opaque liquid
Chemical Type	High molecular weight polyvinyl compound
Density (g/cc @ 15.6°C)	0.81
Incorporation Recommendations	Antibubble LT is best added at the grind stage, but can also be incorporated at the post-addition stage by stirring rapidly into the coating.
Solids (wt %)	22.5
Solvent	White spirit / Aliphatic hydrocarbon (cumene content < 0.1 %)

REGULATORY

- APEO-Free¹

¹Not intentionally added to the composition of this product

APPLICATIONS

- Building & Construction Coatings
- Industrial OEM Coatings

AVAILABLE REGIONS

- Asia Pacific
- EMEAI
- Latin America
- North America

RECOMMENDED STORAGE AND RE-TEST DATE

Lubrizol recommends retesting quality after 730 days. See SDS for storage conditions and handling instructions.

REGULATORY STATUS

Please see the product's current material safety data sheet, SDS, for regulatory information. You can request an SDS at www.lubrizol.com/coatings.
